PROFESSIONAL SUMMARY

MERN Stack Developer with 3+ years of experience in building and architecting scalable SaaS products using React.js, Next.js, Node.js, and Nest.js, user-centric web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in JavaScript/TypeScript, Next.js, Redux, REST APIs, and responsive UI design. Strong understanding of clean architecture, state management, asynchronous programming, and third-party integrations. Experienced with MySQL, MongoDB, Supabase, and modern cloud-based development workflows.

SKILLS

- Languages: JavaScript, HTML, CSS
- Styling: Tailwind CSS, Bootstrap
- Frameworks & Libraries: React.js, Node.js, Express.js, Next.JS, Nest.JS
- Databases: MongoDB, MySQL
- Tools: Git, GitHub, Postman, VS Code
- Other: REST APIs, JSON, JWT Authentication

PROFESSIONAL EXPERIENCE

SMT Labs

June 2023 - Present

Indore, MP

Project: **CrownTux — Multi-Vendor SaaS E-Commerce Platform**

Role: **React Developer/ Full Stack Developer**

Technology: Next.js, Nest.js, PostgreSQL, TypeScript

- Designed and built a multi-vendor SaaS platform from scratch using modular monolithic architecture with clean separation of concerns.
- Built a configurable multi-parameter filtering system (price, category, rating, availability), reducing product discovery time by 50%.
- Optimised PostgreSQL schemas and queries using indexing and query planning, reducing average database query time by 45%.
- Integrated secure payment workflows ensuring PCI-compliant data handling across all transaction endpoints.

Project: **SwasthyaKranti – RCM World Admin Panel**

Role: **Full Stack Developer**

Technology: ReactJS, NodeJS, ExpressJS, PostgreSQL, REST APIs

Description:

- Developed a healthcare and wellness admin panel to manage content for a mobile application.
- Built a responsive and modular frontend using ReactJS.
- Implemented backend services and REST APIs using NodeJS, ExpressJS, and PostgreSQL.
- Designed and managed SEEDS modules: Sleep, Emotional Wellbeing, Exercise, Diet, and Supplements.
- Enabled admin-driven management of supplements, exercises, meal types, guidelines, and recipes.
- Implemented general health goals (Overall Wellbeing, Weight Loss) and disease-based health goals such as Anemia and Blood Pressure.
- Implemented default tasks and notification management to automate user engagement and daily health reminders.
- Integrated secure APIs for seamless data synchronization between the admin panel and mobile app

Project: **VIP Formalwear**

Role: **Full Stack Developer**

Technology: ReactJS, Next.js, NodeJS, ExpressJS, REST APIs

- Description: Developed and maintained a modern formalwear rental and e-commerce platform.
- Built a responsive and scalable frontend using ReactJS and Next.js,
- integrated REST APIs for seamless communication between frontend and backend, and implemented backend services with NodeJS and ExpressJS.
- Enhanced system performance, optimized API response times, and improved user experience with features like advanced filtering, dynamic product management, and secure checkout.

Project: **Dubois Orders**

Role: **Frontend Developer**

Technology: ReactJS, ExpressJS

- Contributed to an e-commerce platform for online clothing and wedding attire rentals.
- Built interactive and reusable UI components for product browsing, filtering, and ordering.
- Focused on smooth user experience and clean frontend architecture using React.js.

Project: **ThirdRoc**

Role: **Full Stack Developer**

Technology: ReactJS, Redux Toolkit, Bootstrap, NodeJS, ExpressJS, MySQL

- A cloud-based fintech platform enabling secure and scalable digital lending and BNPL solutions for borrowers,
- lenders, merchants, and enterprises. Built end-to-end features using React, Redux Toolkit, and Node.js with MySQL.
- Integrated machine-learning-powered credit risk analysis for transparent.

Project: **CrickBro**

Role: **Frontend Developer**

Technology: ReactJS, TypeScript, Socket.io

- Developed the frontend of a real-time cricket scoring application with features for match scoring, team management, and tournament tracking.
- Built an intuitive, responsive, and performance-optimized UI using React and TypeScript, integrating live updates through Socket.io.

EDUCATION

- B.E.(Information Technology), Royal college of Technology, (R.G.P.V), Indore (M.P) 2012
- HSC, Pink flower Higher Secondary school.-Indore 2007
- SSC, Pink flower Higher Secondary school.-Indore 2005
